2. Mr. E. A. S. Bell, Engineer-in-Chief, State Railway Construction Department, having been kind enough to be present at this meeting to discuss certain matters connected with the construction of the Bowringpet-Kolar District Board Railway, recently sanctioned by the Government of India, the following resolutions were passed by the Board:—

- (i) that it is desirable to have only two classes of stock on this railway to be designated upper class and lower class or first and third class as on many English Railways;
- (ii) that it will be of advantage to utilize second hand 41½ lbs. rails instead of new 30 or 35 lbs. rails, as the mileage rate of the heavier second hand rails will be considerably less than the mileage rate for new rails;
- (iii) that all technical matters in connection with the railway construction be left in the hands of the Engineer-in-Chief;

- (iv) that the plan of the station yard as drawn up by the Madras and Southern Mahratta Railway Company be approved of;
 - (v) that the Madras and Southern Mahratta Railway Company be approached with a view that they may take over the working of the line if suitable terms can be arranged; as the Board are unanimously of an opinion, that to try and work the line themselves or by Government agency would be found to be very expensive, and not in the interest of the travelling public; and
 - (vi) that Government be addressed to allow a three pie railway cess to be levied in the District on Land Revenue and Mohatarfa so as to make provision for the formation of a sinking fund to pay off the loan capital and payment of interest on the Debenture Bonds.
3. Read and recorded General and Revenue Secretary's Memo No. 3116—L. B. 355-10-10, dated 15th October 1912, prescribing the rates for the levy of tolls on public roads and bridges in Mysore.

- Resolved* that the proposal be approved of, and Government be moved to sanction this amount out of last year's closing balance.
